

Shiv Baran Singh

 spyshiv@gmail.com |  Bengaluru, India |  +91-8010444788

Principal Software Developer | UI/UX Specialist | AI/ML Enthusiast

Frontend-focused developer with 8+ years of experience building scalable and performant web applications. Expertise in **micro-frontend architecture**, reusable **UI libraries**, and optimizing user experiences. Passionate about modern front-end technologies, UI consistency, and high-performance applications.

EXPERIENCE

Cyware Labs India, Bengaluru — *Principal Software Developer*

MAY 2018 - PRESENT

Frontend Architecture & Scalable Solutions:

- + Designed and implemented **micro-frontend architecture**, enabling modular, independent deployments and improving scalability while reducing front-end load times by 20%.
- + Integrated **Vite**, **Webpack**, and optimized **CI/CD pipelines**, collaborating with DevOps to streamline deployments and enhance team efficiency.

Reusable UI Components & Design System:

- + Developed **Cy-Frontend-Framework**, a unified **design system and component library**, ensuring **consistent UI/UX** and reducing third-party dependencies by 30%.
- + Built **custom Vue 3 and React component libraries**, including Highcharts-based visualizers and **Froala-rich text editor plugins**, improving performance and streamlining development workflows.

Product Development & Enhancements:

- + Led front-end development for **Collaborate (CSAP)** and **Intel Exchange (CTIX)**, enhancing data ingestion dashboards, authentication workflows, and third-party integrations.

Authentication & Security Enhancements:

- + Built **Vue 3 plugins** for **Google Login**, **reCAPTCHA**, and JWT authentication, strengthening security and improving authentication efficiency.
- + Developed secure API interactions and **OAuth-based authentication workflows**, enabling seamless SSO integration across products.

Neuron, New Delhi — *Full Stack Developer*

MAY 2016 - APRIL 2018

- + Built the **Surbo (Survey Bot) platform**, an AI-powered chatbot with an interactive **React-based admin panel**
- + Developed a **real-time call scheduler** using **Socket.io**.
- + Designed and managed the official company website, optimizing performance and implementing responsive design for a seamless user experience.

SKILLS

Micro-Frontend Architecture, Library/Plugin Development, Data Visualization, API Design, TDD, System Design (HLD/LLD), CI/CD Pipelines, Microservices

Programming Languages

JavaScript (ES6+), Python

Frameworks & Tools

Vue 3, React.js (18+), TypeScript, Vuex, Pinia, Redux, Sass, Froala, D3.js, Highcharts, Chart.js

Build Tools

Vite, Rollup, Webpack

Performance Optimization

Lazy Loading, Code Splitting, Tree Shaking, PWA

DevOps & Tooling

Docker, Git, Jenkins, AWS, Kubernetes, Nginx, Postgres, CI/CD Pipelines

Backend & Other Tools

Node.js (18+), RESTful APIs, WebSockets, Django REST Framework (DRF), JIRA, Figma

EDUCATION & INTERNSHIP

Bachelor of Technology (IT)

JSSATE, NOIDA - (2012-2016)

GPA - 75.2%

Google Summer of Code '17

Mentored students for [CloudCV](#) organization, worked in [EvalAI](#)

Web Development Internship

[CityFlo](#), Mumbai (Winter '16)
