SUMMARY

Frontend-focused technologist with 9+ years of experience building scalable web applications. Expertise in micro-frontend architecture, design systems, and performance optimization. Passionate about bridging AI/ML innovations with intuitive user experiences.

SKILLS

Key Strengths: Micro-Frontend Architecture | Plugin Development | TDD | System Design (HLD & LLD)

Frontend: JavaScript (ES6+), TypeScript, React.js, Vue 3, Next.js, Redux, Vuex, Pinia, Sass, D3.js, Highcharts

Backend: Node.js, Python (FastAPI, Django REST Framework), WebSockets, Firebase, PostgreSQL

Cloud/DevOps & Tools: AWS, Docker, Kubernetes, Jenkins, Nginx, CI/CD, Vercel, Vite, Webpack, Git, JIRA,

AI/ML Stack: TensorFlow.js | OpenAI/Gemini/Claude APIs | LLM Fine-Tuning | RAG Architectures

EXPERIENCE

Cyware Labs India, Bengaluru - Principal Software Developer | May 2018 – Present

- **Architected Micro-Frontend Solutions:** Led the migration of flagship products ([Collaborate](#) and [Intel Exchange](#)) to a micro-frontend architecture, improving scalability & reducing load times by **20%**.
- **Developed Cy-Frontend-Framework:** Created a reusable **design system** and component library, cutting third-party dependencies by **30%** and standardizing development across 7+ teams.
- **CI/CD & Tooling:** Integrated **Vite** and **Webpack** to optimize build pipelines, reducing deployment times by **40%**. Collaborated with DevOps to automate testing and deployments.
- **Security & Plugins:** Built secure **Vue 3 plugins** for Google Login, reCAPTCHA, JWT, and OAuth. Customized rich-text editors (**Froala**, **Quill**) for enterprise needs.
- **AI/ML Integration:** Leveraged **GenAI tools** to automate UI component generation, documentation, storybook, and test case generation, saving **15% development time**.
- **Leadership & Collaboration:** Trained and mentored 10+ junior developers on micro-frontend architecture and optimization (tree-shaking, lazy loading), accelerating team productivity by **25%**.

Neuron, New Delhi - Full Stack Developer | May 2016 – April 2018

- **AI Chatbot Platform (Surbo):** Designed an **AI-powered chatbot** using NLP models, enhancing user engagement by **35%**.
- **React Dashboard:** Built an analytics dashboard with real-time data visualization (**Highcharts**), enabling clients to track KPIs dynamically.
- **Real-Time Scheduler:** Developed a call scheduler using **Socket.io**, reducing conflicts by **50%**.

EDUCATION

B.Tech (Information Technology) - JSSATE, Noida | 2012–2016 | GPA: 7.52/10

ACHIEVEMENTS AND LEADERSHIP

Open Source Leader: Published **6+ npm packages**, including GenAI applications and developer tools.

Google Summer of Code Mentor ([CloudCV](#)): Mentored student contributions to [EvalAI](#) (Open Source).

Competitive Coder: Top 10% **LeetCode (600+ problems)**, specializing in system design optimization.

🚀 **Featured work:** [Portfolio Link](#) | [HuexLab](#) | [Markdown Studio](#) 🚀
